

Greetings!

Thank you for considering partnering with **SwipeGen** to support your institution's training needs. We've developed this training course proposal to detail the training services we've discussed in our previous conversations.

If you have any questions, don't hesitate to contact us directly at **mail.swipegen@gmail.com**.

SwipeGen is primarily based out of Bengaluru and is happy to offer its expertise in IT. Our tried and true system is based on couple of years of cumulative experience shared between our trainers. We take great pride in preparing our clients for success through IT training, and we are confident that after attending our sessions, students will be better equipped than ever to engage in work related to subjects like **DevOps, Data Engineering, Programming, Object oriented concepts, Data Science, Cyber Security, Cloud computing, and many others.**

Our Mission

we are passionate about **empowering students to thrive in today's** **hello-educational landscape.** Our innovative training programs are

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

meticulously crafted to equip college students with the essential skills and knowledge needed to excel academically and beyond. Through interactive **workshops, hands-on projects**, and **personalized coaching**, we cultivate a **supportive learning** environment where students can **explore emerging technologies, master critical thinking**, and **develop practical problem-solving abilities**.

Our Team

Our **experienced instructors**, who are **experts** in their fields, guide students through an engaging curriculum tailored to meet the demands of modern education. Whether it's **enhancing coding proficiency, honing leadership skills, or fostering entrepreneurship mindset**, we provide comprehensive training that prepares students for success in their academic and professional endeavors. Allows us to embark the students on a transformative educational journey where every student has the opportunity to unleash their full potential.

mail.swipegen@gmail.com 

www.swipegen.in 

Our Clients

We have a presence in most of the metropolitan cities in India and have been serving a lot of the top-notch institutions across the country. Our work has been recognized by most of our clients and we have been **rewarded with amazing feedbacks** in the past few years.

Our clients are at the forefront of **innovation**, consistently **pushing boundaries** and setting new standards for us in the industry. With them, we are transforming futures through **personalized and impactful educational training programs**.

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Some of the clients that we have been constantly serving throughout and where we have played a **crucial role in upskilling the students** are listed below:

- **National Institute of Technology, Mizoram.**
- **R V Institute of Technology and Management, Bengaluru.**
- **New Horizon College of Engineering, Bengaluru.**
- **B N M Institute of Technology, Bengaluru.**
- **R N S Institute of Technology Bengaluru.**
- **K S Institute of Technology Bengaluru.**
- **Vivekananda Institute of Technology Bengaluru.**
- **Dayananda Sagar College of Engineering, Bengaluru.**
- **B G S College of Engineering and Technology, Bengaluru.**
- **K S School of Engineering and Management, Bengaluru.**
- **Dayananda Sagar College of Arts, Science & Commerce, Bengaluru.**
- **Prabhat Engineering College, Kanpur.**

and many more....

Proposed Training Programs

Our training sessions are meticulously planned by our trainers and are designed to maneuver towards the maximization of efficiency. Your time is valuable, and so is ours, so our goal is to best prepare you while taking up the least amount of your time possible.

- There are multiple programs that we run across various colleges. These training programs are tailored to meet the specific needs of the college and its students.
- We offer flexibility in program delivery and schedule as every college may have their other commitments for the betterment of the students.
- Refer the **exhibits in the next page** for the various programs that we already have ongoing with our existing clients. We can always work out **customized programs on demand**.

Please review the options provided and select the one that best fits your specific use case. We understand that each situation may have unique requirements, and we are here to help you make an informed decision. Our team is readily available to provide support and guidance tailored to your needs.

Thank you for considering our services, and we look forward to assisting you!

Part 1 - Seminars & Talks

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Seminar 1

Title	Minds in the Cloud: Exploring Cloud-based Machine Learning
Description	"Minds in the Cloud: Exploring Cloud-based Machine Learning" delves into the transformative synergy of artificial intelligence and cloud computing. This seminar illuminates how cloud platforms empower machine learning applications, fostering scalability, accessibility, and collaborative innovation for aspiring AI/ML enthusiasts.
Domain	Cloud Computing & Machine Learning
Duration	2 - 2.5 Hours

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Seminar 2

Title	Edge of Tomorrow: Unleashing the Potential of Edge Computing
Description	Explore the forefront of technology in 'Edge of Tomorrow: Unleashing the Potential of Edge Computing.' This seminar delves into the transformative power of edge computing, unlocking its vast potential to reshape data processing, connectivity, and smart systems for a dynamic and efficient future.
Domain	Edge and Cloud Computing
Duration	2 - 2.5 Hours

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Seminar 3

Title	From Raw Data to Actionable Insights: A Data Analytics Journey
Description	Embark on a transformative voyage from raw data to actionable insights in "A Data Analytics Journey," exploring the dynamic process of extracting valuable meaning from data for informed decision-making.
Domain	Data Science and Artificial Intelligence
Duration	2 - 2.5 Hours

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Seminar 4

Title	Cloud Computing using Azure
Description	This seminar gives an end-to-end walk through to the students on the capabilities of the fastest growing Cloud provider, Microsoft Azure. This will help them understand Cloud, it's need and a clear picture of how one can leverage cloud as engineers when they go to the industry.
Domain	Big Data and Cloud Computing
Duration	2 - 2.5 Hours

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Seminar 5

Title	Metaverse
Description	In case the students are interested in knowing the AR, VR and MR Technologies, this is the way to go. This shall give them an idea on the realities of this niche and also help them understand the built-up, the challenges and the future scope of it.
Domain	Augmented, Virtual and Mixed Reality
Duration	2 - 2.5 Hours

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Seminar 6

Title	IT Beyond Programming
Description	For students of all levels, choosing the right career isn't always easy. The scope of engineering curriculum is confined and revolves mostly around software development while the IT sector has got a lot of new domains which every student must know about. This seminar is specifically designed to cater their needs of understanding all the career domains inside IT and explains them in detail, the tools, technologies, scopes, job roles and responsibilities etc for each of the domains like Data Science, Data Engineering, DevOps, Data Analytics, Software Testing, Cybersecurity, Full Stack Development, Mobile app development and others.
Domain	All Domains
Duration	2 - 2.5 Hours

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Part 2 - Hands-on Workshops

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Workshop 1

Title	Web development from scratch.
Description	Building and Deploying a website using HTML, CSS, JavaScript. This will give the students a complete idea of how to build a web application and what happens after the development phase is completed. They will understand what does it take to make an app publicly accessible.
Domain	Front end development, Cloud Computing, DevOps
Duration	2 Days

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Workshop 2

Title	API Development using .NET Core and Swagger
Description	Students will get an exposure to Backend Development and learn how to build REST APIs in .NET Core and exposing them via Swagger. This workshop will also guide students on configuration management, deployment of the APIs in Azure Function App and demonstrate the real time use cases. This will align them to industry oriented development of services rather than doing it at the college level.
Domain	Back end Development, Cloud Computing, DevOps
Duration	3 Days

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Workshop 3

Title	Build and Deploy an AI service (REST API) using Azure Computer Vision for Automated Document Extraction.
Description	Microsoft Azure for Automated Document Processing to perform OCR (Optical Character Recognition). Falls under the domain of AI and NLP. Involves building a service from end to end.
Domain	Cloud Computing + Data Science (Computer Vision)
Duration	2 Days

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Workshop 4

Title	Building CI/CD Pipelines from scratch in GitHub Actions for deployments. Understanding Builds and Environments along with SDLC.
Description	Overview of Microsoft Azure. Deployment using GitHub Actions into Azure App Service.
Domain	DevOps + Cloud Computing
Duration	3 Days

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Workshop 5

Title	Building Data Pipelines - Core Data Engineering
Description	Data Science Foundations, Data Engineering: Tools and Techniques, Python for Data Engineering, Structured Query Language (SQL) - Advanced
Domain	Big Data Engineering using Cloud
Duration	2 Days

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Workshop 6

Title	Full Stack Web Development
Description	Building a website using HTML, CSS, JavaScript. Building a REST API in C# and .NET Core. This will give the students a complete idea of how to build a web application and integrate the front end and backend code using two different technologies.
Domain	Cloud Computing + Full Stack Development.
Duration	3 Days

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Part 3 - Add-on Programs

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Program 1

Full Stack Development

Semester	Technologies covered	Duration (hours)
4	• Source Control Management using Git and GitHub. • Building robust and scalable applications with C# and .NET Core. • Software Development Lifecycle (SDLC), Client Server Architecture, Application Programming Interface (APIs), REST and SOAP APIs.	30
5	• Presentation and styling of Webpages using HTML & CSS. • Business logic development using JavaScript. • Node Package Manager(NPM) and Angular. • Building full fledged Web Application using .NET Core and Angular.	30

+91-7985199972

mail.swipegen@gmail.com

www.swipegen.in

Program 1 Contd...

Full Stack Development Contd...

Semester	Technologies covered	Duration (hours)
6	Placements 360 • Aptitude Basics - Quantitative Aptitude, Verbal Ability, Logical Reasoning and relevant. • Programming, OOPs, Data Structures and Algorithms, DBMS, Operating System, Networking and relevant. • Soft Skills - Group Discussion Preparation, Interview Etiquette, Resume Building and Mock Interviews.	30

Program Outcome:

This program is spread across **three semesters**. While the third semester shall focus on preparing the students for placements and aim at overall employability, the first two semesters aim at upskilling the students for **Full Stack Development, Frontend, Backend development and similar job roles** in the IT industry with an exposure to **cloud technologies** as a plus.

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Program 2

Data Engineering in Cloud

Semester	Technologies covered	Duration (hours)
4	• Data Science Foundations • Data Engineering : Tools and Techniques • Python for Data Engineering • Structured Query Language (SQL) - Advanced	30
5	• Cloud Fundamentals • Microsoft Azure: Complete Overview • Azure Data Factory for ETL: Building Data Pipelines • Data transformation using Azure Databricks. • Stream and Batch processing using PySpark	30

Program 3

Problem Solving using Java (Hackerrank & LeetCode).

Semester	Agenda	Duration (hours)
3 or 4	• Programming Techniques • Java Interviews Toolbox • Interview challenges in Java ◦ Fundamentals ◦ Object Oriented Concepts • Placement Practice resources	30
4 or 5	• Problem Solving and Algorithmic Thinking using Java • DSA Problems • Interview MCQs • Placement Practice resources	30

Program Outcome:

This program is spread across **two semesters**. While the **first semester** modules shall focus on **building the foundations of programming**, the **following semester** modules shall focus on **preparing the students for placements and improve overall employability**. Both the program units aim at upskilling the students for **Software Development Engineer, Backend Developer, Java Developer and similar job roles** in the IT industry.

Part 4 - Center of Excellence

+91-7985199972 

mail.swipegen@gmail.com 

www.swipegen.in 

Establishment of CoE

Objective	To provide a platform for the students of engineering, constant exposure to the industry for learning, upskilling and mentorship.
Description	Crafting an exemplary Centre of Excellence for students entails the consistent presence of industry luminaries every fortnight. Through this initiative, students receive comprehensive training, personalized guidance, and invaluable mentoring on diverse IT tools, technologies, projects, placements, and essential industry skills, fostering their preparedness for thriving careers in the IT sector.
Domain	All IT domains
Duration	Permanent (Industry Interaction Program every alternate Saturday throughout the semester)
